SPIRIT MEETS MATTER

'Alien Nature' - Catalogue No. ZONE CD006

Zone have released their new CD album in July 2005 on Potentia (catalogue No. ZONE CD006) on CD format only, in an initial edition of 500 copies.

'Alien Nature' is the fifth album to be released by the Welsh based duo from Swansea comprising Andrew Cadmore and Chris Brandrick recording together with long standing associates vocalist Jeremy S. Gluck (Barracudas) and Syd Howells.

The CD features twelve new recordings whose often randomly programmed sounds represent a revitalised look back at Zone's roots in diverse and randomised experimental, electronic music, with echo's of their first album 'Sword Of The Sun'. Sound of the machine age making peace with itself and rediscovering mystery.

'Alien Nature' can be purchased from:
